Mahesha S  
HOD, Dept of Computer Science and BCA  
SSCASCW, Tumkur

To,

The Principal  
SSCASCW, Tumkur

**Through IQAC Co-Ordinator**

Respected Sir,

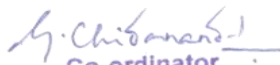

**Subject: Requisition for Conducting Guest Lecture.**

With Respect to above Subject, the department of Computer Science and BCA wants to organize a Guest Lecture on “Principles of Programming language” on 16<sup>th</sup> December 2024 at Akkamahadevi Seminar Hall,so I kindly request you to give permission for the same and oblige.

Thanking you

Yours Faithfully

  
MAHESHA. S  
HOD of Computer Science  
Sree Siddaganga College of Arts  
Science and Commerce for Women  
B.H. Road, Tumakuru-572102.

  
Co-ordinator  
IQAC/NAAC  
SSCASCW, Tumkur

  
PRINCIPAL  
Sree Siddaganga College of Arts,  
Science and Commerce for Women,  
B.H. Road, TUMKUR.

Dr. Asha Gowda Kare Gowda

I hope this email finds you well.

I am writing to extend a formal invitation to you to be a distinguished speaker for an expert talk on "Principles of Programming Languages" as part of our Department of Computer Science Expert Talk . We believe that your expertise and extensive experience in this field would be incredibly valuable for our students and would greatly enhance their understanding of the subject.

The details of the expert talk are as follows:

**Topic:** Principles of Programming Languages  
**Date:**16/12/2024  
**Time:**10:30AM  
**Venue:**Akkamahadevi Seminar Hall  
**Audience:** sem BCA Students

We would be honoured if you could share your insights on the fundamental concepts, evolution, and significance of programming languages, as well as your thoughts on current trends in the field.

Please let us know if this schedule works for you or if there is a more convenient time. If you require any further details or have specific preferences for the session, we are happy to accommodate them.

We look forward to your positive response and hope you will honour us with your presence as a resource person for this event.

Thank you for considering our invitation. We are confident that your contribution will be an invaluable experience for our students.

Warm regards,  
 Mallesha S  
 HOD  
 Department of Computer Science  
 SSCASCW, Tumkur

## PROGRAM REPORT

An enlightening expert talk on the "Principles of Programming Language" was held on 16th December 2024 at Akkamahadevi Seminar Hall from 10:30 AM to 12:30 PM. The event was graced by an esteemed expert in the field of computer science and programming.

The expert talk focused on the principles of programming languages, discussing their role in shaping modern software development practices. The session began with an introduction to the concept of programming languages and their significance in problem-solving, software development, and system architecture.

The speaker started by explaining the history of programming languages, from early machine code and assembly language to modern high-level languages. They discussed how languages like FORTRAN and COBOL paved the way for today's more complex and user-friendly languages. The speaker then explained two key components of programming languages: syntax, which is the structure and rules for writing programs, and semantics, which is about the meaning and behaviour of the code. They demonstrated how understanding semantics helps create better algorithms and provided examples of common errors.

The discussion also covered different programming paradigms, including imperative, declarative, object-oriented, functional, and logic programming, highlighting the strengths and weaknesses of each. The speaker shared important principles for designing languages, such as readability, writability, efficiency, and portability, which help create effective and user-friendly programming languages.

Recent trends in programming languages, such as multi-paradigm languages, parallel programming, and domain-specific languages (DSLs), were also discussed. The speaker stressed the importance of continuous learning to keep up with new technologies. After the talk, they answered questions from the audience about programming language selection, debugging, and career opportunities in the field of programming languages.

The expert talk concluded with encouragement for the participants to explore various programming languages and understand the underlying principles to become better software developers. The speaker reiterated the importance of grasping the foundational concepts of programming languages as they form the core of any advanced software development endeavour.

The session was well-received by the audience, who expressed their appreciation for the depth of knowledge shared and the practical insights provided. The event was a great success, fostering a deeper understanding of the principles that guide modern programming languages.
