Sree Siddaganga College of Arts, Science and Commerce
for Women, B.H. Road, Tumakuru – 572102, Karnataka

Sree Sree Uddana Shivayogigalu of Sree Siddaganga Math established its Gurukula in 1917. It was later expanded and developed significantly by the revered Padma Bhushan awardee Dr. Sree Sree Sivakumara Swamiji, who dedicated his life to the service of humanity. The Siddaganga Math provides free food, education, and accommodation to over 10,500 students, irrespective of caste, creed, or community. Dr. Sree Sree Sivakumara Swamiji also established the Sree Siddaganga Education Society, which oversees around 125 educational institutions-including schools and colleges-primarily serving in rural areas of Karnataka. The incumbent President, Sree Sree Siddalinga Swamiji, continues to uphold and expand the noble humanitarian and educational missions initiated by his predecessors.

About the College

Sree Siddaganga College of Arts, Science, and Commerce for Women is one among the four degree colleges run by Sree Siddaganga Education Society. It was established in 1982 by keeping women empowerment as the objective. The college is situated in the heart of Tumakuru. The institution offers four undergraduate programmes B.A, B.Sc, B.Com and B.C.A. The institution has successfully completed its fourth cycle of NAAC accreditation in 2024 with B+ grade. ✦

About the Departments

The departments of Physics, Chemistry, Mathematics, Zoology, Botany and Computer Science form the backbone of academic excellence and research innovations in our institutions. These departments strive to bridge theoretical knowledge with practical application through

laboratories, research projects, seminars, workshops and interdisciplinary collaborations.

Preface to FDP

The departments of science are proud to organise a six days Faculty Development Programme (FDP) on "Research Methodology for Experimental and Theoretical Sciences" from 9th to 14th March 2026 in online mode. In the contemporary academic landscape, research forms the foundation of scientific advancement. Whether in experimental sciences such as physics, chemistry, life sciences and environmental sciences or in theoretical domains like mathematics and computer science, a strong methodological framework is essential for producing meaningful, reliable and impactful research outcomes.

Objectives of FDP on Research Methodology for Experimental and Theoretical Sciences

1. To promote quality teaching and research.
2. To encourage scientific inquiry and critical thinking.
3. To strengthen faculty competence in advanced research design.
4. To enhance skills in quantitative and qualitative data analysis.
5. To promote interdisciplinary and collaborative research.
6. To encourage publication in high impact journals.

**REPORT ON SIX-DAY NATIONAL LEVEL FACULTY
DEVELOPMENT PROGRAMME
ON
RESEARCH METHODOLOGY FOR EXPERIMENTAL AND THEORETICAL
SCIENCES
(9th March – 14th March 2026)**

A Six-Day National Level Faculty Development Program (FDP) on Research Methodology for Experimental and Theoretical Sciences was successfully organized by the Departments of Science from 9th to 14th March 2026. The primary objective of the program was to enhance the research capabilities of faculty members, scholars, and students by providing them with comprehensive knowledge of modern research methodologies, tools, and techniques applicable to both experimental and theoretical domains.

The program commenced on 9th March 2026 with an inaugural session graced by distinguished academicians and resource persons from reputed institutions. The speakers emphasized the importance of research in academia and highlighted the need for adopting innovative and ethical research practices.

Throughout the six days, expert resource persons delivered insightful lectures on various aspects of research methodology. The sessions covered topics such as research design, formulation of research problems, literature review techniques, data collection methods, statistical analysis, use of software tools, experimental techniques, theoretical modelling, and scientific writing. Special emphasis was given to interdisciplinary research and publication ethics, including awareness about predatory journals.

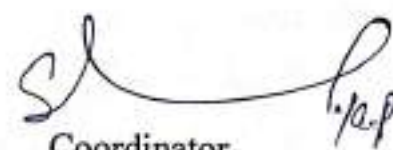

Interactive sessions, hands-on training, and discussions were key features of the program, enabling participants to actively engage with the experts. Participants gained practical exposure to research tools and learned how to apply appropriate methodologies in their respective fields. The program also provided guidance on writing research papers, thesis preparation, and publishing in indexed journals.

The FDP witnessed enthusiastic participation from faculty members, research scholars, and students from various institutions across the country. The sessions were well-received, and participants appreciated the depth of knowledge shared by the resource persons.

The valedictory session was held on 14th March 2026, where participants shared their feedback and experiences. Certificates were distributed to all participants, and the program concluded with a vote of thanks, acknowledging the efforts of the organizing committee and contributors.

Overall, the six-day FDP was highly successful in achieving its objectives and proved to be a valuable platform for academic enrichment and research skill development.
